I think what people should be concerned about while making this decision is a couple of things. First and foremost the issue of safety should be addressed. It should make sure that students that walk to and from school and pedestrians should be aware of the hazards as well as everyone who has anything to do with this. Also, if possible, I think both sides could reach an agreement/comromise with this issue. For example, we should raise money for an elevated train system so it won't interfeer with traffic. I think this will make both sides happy and eliminate majority of the complaints from the community.
